Vision

We envision to be a company that inspires technology and creativity to be the sources of business growth. We strive to provide clients the power to share and connect their business to the world with our sustainable IT solutions and strategies.

Mission

Our mission is to assist people to create high levels of digital value so that they can set extraordinary standards of excellence in their respective industries. We design, develop, and publish websites, mobile apps & customized software which are the perfect fusion of technology and art. Along with complete IT solutions, we aim to provide the finest and genuine graphics designing, logo designing and Content writing services.

INTRODUCTION

In today's technological world, connectivity and applications are full of infinite possibilities. Innovations are always unexpected and surprising. And therefore **Coding Visions Infotech Pvt. Ltd.** takes it on ourselves to assist you with such endless capabilities and decode the infinity for your business with our services. Our development services range from logo designing to web hosting, and to website design and software development. We provide what you prefer, Creatively with an infinity of potential, timely services, and the means and resources . No matter where you are if given a chance, we assure you that with our services you can reach out and beyond.

We are artists in love with engineering. And when we develop anything we make sure it should be well-built and unique enough to stand out. We are completely aware that development is not just art and engineering. Websites, Softwares, Mobile Apps and Graphics designing should facilitate brand identity, It should educate, communicate, and sell.

We are diligent and we believe our expertise can benefit and help you reach your business goals. We are looking forward to exchanging our infinite ideas with you and boost your progress with unmatched customer service and support.

Website Development

We are web developers with deep roots in storytelling and customized designs that are human-centered and conversion focused. There are infinite layouts, themes, and colors for the website. It's an extraordinarily complex task to figure out how to make development work as per clients' needs and over the years we molded ourselves to be undoubtedly outstanding and fulfill every request of our clients.

Software Development

Every individual is different, every business is different. Every industry has its own infinity, hence before being coders, we choose to be a common human first. We thoroughly understand our clients' needs before we work with them. We build customized software as per the demands of customers which empowers them to and transform their businesses. We will be glad to be your source of access to technology.

Mobile App Development

Smartphone Apps have their own influence among workplaces and industries, the way they provide convenience is incomparable. Our in-depth mobile knowledge supports us to meet both business and user goals. With a complete analysis of the requirements and combining your industry knowledge with our mobile technology expertise, we can build the optimum solution for your requirements at affordable rates.

Graphics Designing

Graphic design is the art of visual communication through the use of text, photos, and illustrations. Our most skilled and creative minds at work have helped over 125 clients to tell their stories through impressive designs. Allow us to design whatever you need and let us serve you with the artistic and finest quality graphics. We can effortlessly connect with your audience and create a long-lasting impression of your business.

Digital Marketing

Digital marketing has its own mysteries, there are ideas above ideas and stories above stories to promote business. Our team has the essential power of imagination and skills of creation to help our clients to create their digital footprint. Our precise competitive analysis, keyword research, and artistic digital marketing strategies make us capable of being a perfect partner for branding your business.

Internet of Things (IoT)

At present every business begins with an IoT infrastructure that offers reliability, security, and scalability. IoT strengthens the bricks of business in a few clicks. Also, there are endless possibilities of major advancements in machine learning and artificial intelligence within the next few years. Be it our clients or our services, We always choose quality over quantity and intend to offer the most unique and exceptional service. Embark your journey with us and merge all your business entities together and be ready for elevating every day.

TESTIMONIALS

“

Working with this team is always a positive experience. Really professional team which respects timeline for every work. They have a strong hold on WordPress and website related work. Would surely recommend working with this team.

— **Rushikesh Kulkarni**
CEO, Simplicity Creations Technologies Pvt. Ltd.

“

We couldn't be more pleased with the website created for us by Coding Visions. It is current, attractive, and super easy to navigate. We are looking forward to working together in future.

— **Neeraj Athalye**
Executive Director, Sydler Technologies Pvt.Ltd

“

Thank you for building the website. It is really good and UI is user friendly. You also did all the changes to accommodate our requirements. We appreciate your promptness and sincerity. Wish you a great success ahead.

— **Abhishek Tapadia**
MD, E-Rides & Tapadia Constructions

“

The youth means tremendous energy" and most of the "YOUTH" are unable to find their path . But still good hope is always and it is nothing but "Coding Vision". This is one of uprising IT industry from Aurangabad (MH) which is running by the "YOUTH". The Ave best friends are now business implementer and giving their best to the society through knowledge and visionary idea. Especially the "Vedant Jagirdar" who is leading this organization with his smartness, willingness and hardworking. Therefore, I congratulate them all and wish a very bright future and success for your organization...

Our Ventures

We are into some other business as well

Looking at the competition and fast growing market in various domains, we too had ventured into some more business domains and expanded our service expertise in other sectors.

Kadipatta Cloud Kitchen

Kadipatta is a cloud based kitchen initiative to add taste and aroma to your food. We specialize in variety of rice items like Khichadi, Biryani, and other veggies and rice combos.

We have our major focus on hygiene and taste. We prepare your meal with love and pack it to perfection so that you can enjoy it anywhere and everywhere.

Kadipatta Café

Kadipatta Cafe, is a joint where authentic Chinese cuisine, India's fav Pav-Bhaji is served along with few beverages like Tea, Cold Coffee, Shakes etc. . A lavish ambiance with hygienic and authentic Indian flavors you can enjoy your dish of yummy snacks.
